**When you need a commercial
surfacing or civils project delivered
on budget and on time, there's
only one name you should
rely on for a market
leading surface...
HighwaysPlus**

Customers typically tell us

'We only ever use the best quality and
most reliable partners to support our surfacing
projects. HighwaysPlus fulfil
that criteria'

Backlog Defect **Resolution**

WITH **OVER 30,000** UN-ADOPTED SITES ACROSS THE UK...

HighwaysPus has developed our Adoption Management System to support developers with any backlog schemes they still have on their books.

Our key aim is to provide our clients with a 'lump sum, fixed fee' quotation to secure maintenance/adoption of each scheme, including all required technical, legal, consultancy and remedial works. We are specialists in the adoption/vesting of highways (section 38, 278 or 111), sewers (Section 102, 104 or 185), Pump Stations and Public Open Space.

Quality infrastructure,
delivered on time and built to last
